

# INDEX DES ARTICLES PUBLIÉS

Tome 133 A

## SECTION I. — Microbiologie générale. Physiologie et génétique bactériennes

Presentation of the maltose system and of the workshop, by M. HOFNUNG ...	5
A system for genetic analysis in gene <i>lamB</i> : first results with $\lambda$ -resistant <i>tight</i> mutants, by J.-M. CLÉMENT, C. BRAUN-BRETON, E. LEPOUCE, C. MARCHAL, D. PERRIN, H. VILLARROYA and M. HOFNUNG .....	9
Molecular weights and subunit structure of LamB proteins, by T. NAKAE and J. ISHII .....	21
The receptor protein of phage $\lambda$ : purification, characterization and preliminary electrical studies in planar lipid bilayers, by J.-M. NEUHAUS.....	27
Monoclonal antibodies against the LamB protein, by J. GABAY .....	33
Structural investigations of outer membrane proteins from <i>Escherichia coli</i> , by R. M. GARAVITO, J. A. JENKINS, J. M. NEUHAUS, A. P. PUGSLEY and J. P. ROSENBUSCH .....	37
Arrangement of bacteriophage lambda receptor protein (LamB) in the <i>Escherichia coli</i> cell surface, by H. YAMADA, T. NOGAMI and S. MIZUSHIMA .....	43
Sequence studies on the maltose-binding protein of <i>Escherichia coli</i> , by A. V. FOWLER and I. ZABIN .....	49
Comparison of structural properties and primer requirements of <i>Escherichia coli</i> maltodextrin phosphorylase and rabbit muscle glycogen phosphorylase, by D. PALM, R. GÖRL and K.-H. SCHÄCHTELE .....	55
Clonage de la région <i>malA</i> de <i>Escherichia coli</i> K12: séquences des nucléotides des régions régulatrices et des promoteurs, identification et purification de la protéine activatrice MalT, par O. RAIBAUD, M. DÉBARBOUILLÉ et P. COSSART .....	59
Structure of the <i>malB</i> regulatory interval, by H. BEDOUELLE.....	65
Synthesis of mRNA of <i>malB</i> operons at specific stages in the cell cycle of <i>Escherichia coli</i> , by M. OHKI, H. OGAWA and S. NISHIMURA.....	71
Role of the catabolite activator protein in the expression of the maltose regulon of <i>Escherichia coli</i> , by C. CHAPON .....	77
Pleiotropic expression of catabolic operons in the absence of the cAMP-CAP complex: the case of the maltose regulon, by C. GUIDI-RONTANI, A. DANCHIN and A. ULLMANN .....	81
<i>rho</i> mutations may unmask promoter activity in <i>Escherichia coli</i> K12, by B. COLONNA and I. SAINT GIRONS.....	87
Genetics studies concerning the mechanism of secretion of the maltose-binding protein of <i>Escherichia coli</i> , by P. J. BASSFORD, Jr .....	91
Some current problems in the study of the mechanism of protein localization in <i>Escherichia coli</i> , by K. ITO .....	101
Pleiotropic mutants affecting the secretory apparatus of <i>Escherichia coli</i> , by D. OLIVER, C. KUMAMOTO, M. QUINLAN and J. BECKWITH .....	105

Studies on the export of the maltose-binding protein and the LamB protein, by L.-G. JOSEFSSON, S. HARDY, S. HARAYAMA and L. RANDALL.....	111
Genetic approaches to study export of LamB to the outer membrane, by S. BENSON, S. EMR, M. HALL, T. SILHAVY and E. SODERGREN .....	115
Reconsidering the early steps of protein secretion, by M. N. HALL and M. SCHWARTZ .....	123
Co-translational insertion of envelope proteins: theoretical considerations and implications, by G. H. VOS-SCHEPERKEUTER and B. WITHOLT .....	129
Kinetics of induction of the <i>LamB</i> -gene product in <i>Escherichia coli</i> : appearance of the newly synthesized protein in the cell envelope, by M. KOK, G. VOS SCHEPERKEUTER and B. WITHOLT.....	139
Aspects of maltose transport in <i>Escherichia coli</i> ; established facts and educated guesses, by W. BOOS .....	145
The maltose-maltodextrin transport system of <i>Escherichia coli</i> , by H. A. SHUMAN .....	153
Maltose and maltodextrin transport in <i>Escherichia coli</i> , by C. WANDERSMAN .....	161
Purification and functional characterization of mutant LamB proteins, by M. LUCKEY and H. NIKAIDO .....	165
Affinity-chromatographic studies based on the binding-specificity of the lambda receptor of <i>Escherichia coli</i> , by T. FERENCI .....	167
Reconstitution of maltose transport in <i>malB</i> and <i>malA</i> mutants of <i>Escherichia coli</i> , by J. M. BRASS.....	171
Maltose transacetylase of <i>Escherichia coli</i> : a preliminary report, by S. FREUNDLIEB and W. BOOS .....	181
Special features of chemotaxis towards maltose, by G. L. HAZELBAUER, S. HARAYAMA and P. ENGSTROM .....	191
Immobilization of the periplasmic maltose-binding protein of <i>Escherichia coli</i> , by H. HAYASHI and M. OHBA.....	195
Membrane potential stimulated binding of the maltose-binding protein to membrane vesicles of <i>Escherichia coli</i> , by G. RICHARME, J. MEURY and J. BOUVIER .....	199
Lipopolysaccharide requirement of phage T6 inactivation in <i>Escherichia coli</i> K12, by I. YAMATO and U. HINZ.....	205
Expression in <i>Escherichia coli</i> K12 of the cloned genes for a major outer membrane protein (OmpA protein) from <i>Shigella dysenteriae</i> , <i>Enterobacter aerogenes</i> and <i>Serratia marcescens</i> , by S. T. COLE, G. BRAUN, I. SONNTAG and U. HENNING.....	209
Characterization of the phage $\lambda$ regulatory protein cII, by Y. Ho and M. ROSENBERG .....	215
Systems for generating and defecting mutations in the galactose operon promoter region, by S. BUSBY, M. IRANI, S. ADHYA and B. DE CROMBRUGGHE .....	219
Antitermination of transcription by the N-gene protein of bacteriophage lambda: recent progress and remaining problems, by J. GREENBLATT .....	225
Superposition of genetic sites in the regulatory region of the bipolar <i>argECBH</i> operon of <i>Escherichia coli</i> , by R. CUNIN, A. BOYEN, J. PIETTE, M. CRABEEL and N. GLANSDORFF .....	235
<i>pho</i> -Regulon of <i>Escherichia coli</i> K12: a minireview, by J. TOMMASSEN and B. LUGTENBERG .....	243
Acetohydroxy acid synthase isoenzymes of <i>Escherichia coli</i> K12 and <i>Salmonella typhimurium</i> , by M. DE FELICE, C. T. LAGO, C. H. SQUIRES and J. M. CALVO .....	251
Function of the signal peptides in protein secretion across the membrane, by S. INOUE and M. INOUE.....	257
Regulation of sugar transport in <i>Salmonella typhimurium</i> , by P. W. POSTMA..	261

# INDEX DES ARTICLES PUBLIÉS

555

Mechanism of regulation of the lactose permease by the phosphotransferase system in <i>Escherichia coli</i> : evidence for protein-protein interaction, by T. OSUMI and M. H. SAIER Jr .....	269
Aspects ultrastructuraux et cytochimiques de la régénération des sphéroprotoplastes chez <i>Candida albicans</i> , par G. TRONCHIN, D. POULAIN, J. HERBAUT et J. BIGUET.....	275
The metabolism of $\beta$ -glucosides in <i>Escherichia coli</i> K12, by R. DEFEZ and M. DE FELICE .....	347
Plasmid-mediated invasiveness of « <i>Shigella</i> -like » <i>Escherichia coli</i> , by P. J. SANSONETTI, H. D'HAUTEVILLE, S. B. FORMAL and M. TOUCAS .....	351

## SECTION II. — Microbiologie médicale.

Détermination rapide de la concentration minimale inhibitrice d'un antibiotique par dosage de l'ATP bactérien, par J. L. FAUCHÈRE, M. SIMONET, Ph. DESCAMPS et M. VÉRON.....	293
Comparison between plasmids of <i>Salmonella</i> and other enterobacteria isolated from the same patients, by J. C. PALOMARES and E. J. PEREA ...	301
Utilisation de substrats carbonés par <i>Klebsiella</i> , par J. K. ONOKODI et G. WAUTERS .....	311
<i>In vitro</i> attachement to a human cell line of <i>Escherichia coli</i> strains causing urinary-tract infection: occurrences of fimbriae (pili) in adhesive and non-adhesive strains, by G. CHABANON, C. L. HARTLEY and M. H. RICHMOND.....	357
Étude de l'espèce <i>Enterobacter gergoviae</i> par hybridation ADN/ADN, par D. IZARD, A. HUSSON, C. RICHARD, F. GAVINI et H. LECLERC.....	371
Essai de caractérisation ultrastructurale et biochimique de <i>Brucella</i> à paroi déficiente (formes L), par J. SCHMITT-SLOMSKA, R. CARAVANO, P. THOMAS et J. ROUX.....	377
Intérêt de la recherche de la $\gamma$ -glutamyl-transférase chez les <i>Neisseriaceae</i> , par J. Y. RIOU, J. BUISSIÈRE, C. RICHARD et M. GUIBOURDENCHE.....	387
Implantation précoce d'une souche de <i>Escherichia coli</i> dans l'intestin de nouveau-nés humains : effet de barrière vis-à-vis de souches de <i>E. coli</i> antibiorésistantes, par Y. DUVAL-IFLAH, M.-F. OURIET, C. MOREAU, N. DANIEL, J.-C. GABILAN et P. RAIBAUD .....	393
Rapport entre l'indice de lumière dispersée 50 % (LSI <sub>50</sub> ) et la concentration inhibitrice 50 % (CI <sub>50</sub> ), par S. S. CHUNG, H. B. DRUGEON, A. REYNAUD et A. L. COURTIEU .....	409

## SECTION III. — Microbiologie appliquée.

Isoenzyme patterns of pathogenic and non-pathogenic <i>Naegleria</i> spp. using agarose isoelectric focusing, by J. F. DE JONCKHEERE .....	319
Urease activity in the genus <i>Bifidobacterium</i> , by F. CROCIANI and D. MATTEUZZI .....	417
Sporulation et cristallogène de <i>Bacillus thuringiensis</i> var. <i>israelensis</i> en microscopie électronique, par J.-F. CHARLES et H. DE BARJAC .....	425
Effet antagoniste à l'égard de <i>Clostridium perfringens</i> exercé par des souches de <i>Clostridium</i> isolées de la microflore de souris holoxéniques dans le tube digestif de souris gnotoxénique, par S. HUDAULT, P. RAIBAUD, R. DUCLUZEAU et C. BRIDONNEAU.....	443

Properties of <i>Rhizobium leguminosarum</i> isolated from various regions of Morocco, by F. M. ROBERT, J. A. E. MOLINA and E. L. SCHMIDT .....	461
Taxonomie numérique de <i>Bacillus thermophiles</i> isolés de sols de rizières de l'Afrique de l'Ouest, par J. L. GARCIA, S. ROUSSOS, M. BENSOUSSAN, A. BIANCHI et M. MANDEL .....	471
Résumés du Colloque International de Microbiologie tropicale, Abidjan, 22-25 mars 1982.....	489
